INTRODUCTORY COMMENTS

The Examiner rejected claims 1-37 under 35 U.S.C. § 102(e) as allegedly anticipated by U.S. Patent 6,253,326 to Lincke (hereafter "Lincke '326") based on his interpretation Lincke '326. It is believed the present amendments, as well as the Remarks from the prior Response filed by the Applicant, should put this case in condition for allowance.
